

## HIGHLAND GATE DEVELOPMENTS INC.

### NOTICE TO AREA RESIDENTS

#### NOTICE OF TIMBERLINE TRAIL TEMPORARY ROAD CLOSURE (NT-4)

Dear Homeowner:

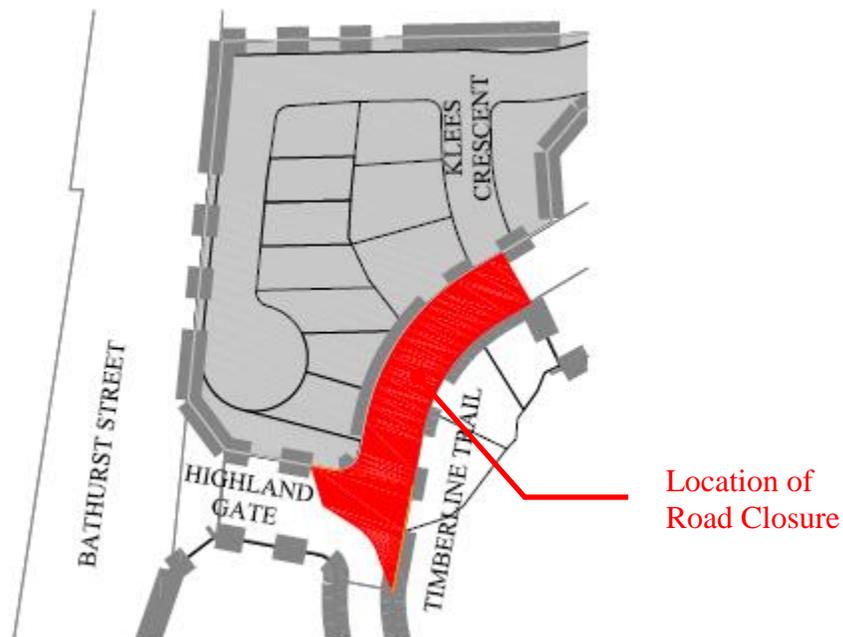

We wish to advise of the temporary road closure of Timberline Trail, north of Highland Gate, for approximately five (5) weeks, which is anticipated to start the week of April 9, 2018. This temporary closure is to facilitate the installation of stormwater and sanitary sewers on Timberline Trail. The works are being completed by Aurora (HGD) Inc. as part of the Highland Gate Development Subdivision servicing.

During construction, access to Timberline Trail will be provided via the intersection of Timberline Trail and Trillium Drive. Full vehicular access will be maintained for southbound movements at the intersection of Highland Gate and Cranberry Lane.

Advanced notification signage will be posted throughout the neighbourhood prior to the closure. Traffic control signage will be in place to guide motorists, cyclists, and pedestrians.

A temporary turning circle will be provided at the west end of Timberline Trail to safely facilitate turning movements at the temporary dead-end.

Emergency services have been advised of the proposed construction activity, and access by emergency services (Police, Fire, and Ambulance), postal delivery, and waste collection will remain unaffected during this time.

A Construction Impact Mitigation Plan (No. 2 – Phase 1 Site Servicing & Road Construction) has been prepared to proactively mitigate potential impacts during the proposed construction program before they arise and address any unforeseen issues. A copy of the Construction Impact Mitigation Plan is posted on the Highland Gate Website. For reference, some of the mitigation measures are outlined below:

### **1. Construction Hours**

As specified in the Town of Aurora Noise By-law, noise prohibitions are required at the following times:

- 1900 (7:00pm) of one day to 0700 hours (7:00 am) of the next day; and
- All day Sundays and Public Holidays.

### **2. Vibration Monitoring**

A vibration monitoring program will be established during these activities to monitor the vibration level next to adjacent buildings.

### **3. Traffic Control**

The General Contractor will assume the responsibility for placing all signage and pavement markings as required for traffic control and traffic notification in accordance with requirements of the Ontario Traffic Manual Book 7.

We thank you in advance for your co-operation for the duration of this project. For questions or comments regarding Highland Gate Developments Inc. construction activities, please call the following number to receive a response within 24 hours:

**(905) 477 GATE (4283)**
